MEMORANDUM FOR: Chief, Policy and Plans Group

FROM: Chief (C)
Information Systems Security Group

25X1

SUBJECT: Proposed Executive Orders (U)

REFERENCE: Memo for DD/PTAS from C/PPG, dated
6 Oct 83, same Subject

1. The Information Systems Security Group (ISSG) does not have any significant problems with proposed Executive Order "Protection of National Security Information"; however the following suggestions may be worth consideration:

a. Page 3, last sentence, first paragraph:
"This determination shall be final and unreviewable." It is felt this statement would be subject to unfavorable consideration in the United States courts. It may be best to omit this sentence entirely.

b. Page 3, section 4, third sentence: We suggest that the phrase, or something similar, be added after the word information; subject to minimum sanitization of certain materials dealing with sources and methods. This is a common practice under the Freedom of Information Act. (U)

2. ISSG has no comments on the Executive Order "Employment in the Federal Government" since it does not apply to the Central Intelligence Agency. (U)
